Georgia Teen Institute Technology Policy

Georgia Teen Institute (GTI) recognizes that more and more frequently, our lifestyles include using cell phones, tablets and other devices on a regular basis. For this reason, GTI established a technology policy that encourages healthy and safe use of these items while at GTI.

Attending GTI gives youth participants a chance to experience a week on a college campus, learn new and exciting things and make new friends. Our busy schedule affords little time for using technology. However, youth and adult participants may be encouraged to use technology for social media during specific sessions during the week. Though we have chosen to embrace social media, bringing a cell phone, tablet or other device is not a requirement to come to GTI, and parents/guardians can decide whether their youth may participate. Parents/Guardians who decide to allow their youth to bring technology should know that GUIDE, Inc., GTI and Oxford College are not responsible for lost, stolen or damaged items.

Youth participants who bring cell phones, tablets or other devices to GTI are expected to use them respectfully, responsibly and at appropriate times. Use of these devices is limited to meal times, transitions between activities and free times each day. Devices should never be used during sessions and activities unless specifically designated as a time to engage with planned social media or technology efforts. Devices should be kept on silent or vibrate mode and stored in dorms, backpacks or otherwise concealed and kept out of sight. We realize that it's often hard to "disconnect," but a large part of GTI is about in person engagement, connection and relationship building.

Please know that by limiting use of technology, we are not trying to prevent parents/guardians from contacting their youth or vice versa. Rather, we are trying to keep youth safe. Camps and youth conferences across the country are dealing with lawsuits and hurt feelings, and some are even faced with shutting their doors because youth bring cell phones and then do youth-like things with them in the camp setting (i.e., take pictures of people in towels or changing clothes; send bullying texts, IMs, etc. to others in the program; make plans to meet up with someone after hours; or lose their phones), and we are trying to avoid these issues at GTI. We do not want these types of issues to be a part of the GTI experience, and we want to support current trends by providing the opportunity to engage in structured use of technology.

Our hope is to provide an opportunity to the young people we serve to engage with GTI on various social media platforms while reminding them to continue to make safe and healthy choices in all aspects of life. We encourage all of those interested in seeing what we are doing at GTI to visit our website and social media channels:

www.georgiati.org	www.guideinc.org/blog	www.facebook.com/guidegti	www.instagram.com/guidegti
www.pinterest.com/guidegti	www.youtube.com/guidegti	www.twitter.com/guidegti	

At GTI, in an effort to keep everyone safe, healthy and focused on having a positive experience, we will not tolerate:

- Use of cell phones, tablets or other devices during any session unless specifically designated as a time to engage with GTI's planned social media efforts;
- Photographs, videos, emails, text messages or social media posts that are considered to be offensive, negative, hurtful or explicit toward other participants;
- Photographs, videos, emails, text messages or social media posts that are considered to be offensive, negative, hurtful or explicit or could defame GUIDE, Inc., Georgia Teen Institute or Oxford College;
- Participants engaging with GUIDE, Inc./Georgia Teen Institute's social media sites with a username or handle that is considered to be offensive, negative, hurtful or explicit;
- Use of online or texting communications for harassment, bullying or intimidation;
- Photographs, video or other media being captured in the bathroom, showers or other private areas or in any situation in which the subject is in a state of undress or engaged in any activity that would cause embarrassment or other harm to the subject;
- Participants under the age of 18 connecting with GTI Staff members over the age of 18 on any social media channel (i.e., friending, following, subscribing, etc.).

The technology policy will be strictly enforced, and we ask that all youth and adult participants adhere to this policy. Consequences for noncompliance to the policy may range from confiscation of the device until the end of the week to immediate dismissal from the program. It is at the GTI Director's discretion to determine the consequence resulting from the infraction.

Georgia Teen Institute Dress Code Policy

The attitude and behavior of participants are influenced by dress and grooming. Georgia Teen Institute will encourage all participants to dress in a fashion that reflects good taste and a style appropriate for a leadership program.

If a style of dress or grooming appears to be disruptive to the educational process or could constitute a threat to the safety or health of participants, it will not be permitted at Georgia Teen Institute, and these individuals will be reported to staff for appropriate action. The following examples are offered as guidelines:

- Offensive, negative, hurtful or explicit slogans on clothing are not permitted;
- Clothing promoting gang activity, drugs, alcohol, tobacco or any illegal substance will not be tolerated. This includes hemp jewelry and other hemp items;
- Short shorts or skirts may not be worn;
